

Unit 4 Final Boss Battle

Scouting Report!

As you progress deeper through the land of Materium Paludum one of your scouts comes bolting on horseback towards you. The dirt he kicks up leaves a seemingly everlasting trail behind him as you watch him approach. Once he arrives, panting he begins to tell you of PhotoCobra and her approaching army. “Her army is growing as we speak, it appeared to have 43 soldiers!” he takes a deep breath and continues on, “Here I have prepared this for you!”
